COMPANY PROFILE

BUILT FOR COMPLIANCE. READY FOR THE REGION.

David Burtina, Founder

Proud Bangerang man of the Yorta Yorta Nation and descendant of the Upai Clan from Badu Island in the Torres Strait Islands.

COMPANY OVERVIEW

Northern Electrical & Testing is a 100% First Nations owned and operated electrical contractor based in Mareeba, Far North Queensland, and servicing Cairns daily, specialising in electrical safety testing and statutory compliance while also delivering reliable electrical services, maintenance and installations.

Backed by our founder's 15+ years of trade and industry experience, we support clients with statutory testing, preventative maintenance, fault response and end-to-end electrical work across regional centres and remote communities.

We are built on high technical standards, transparent asset reporting and dependable delivery across challenging locations.

AT A GLANCE

100% FIRST NATIONS OWNED

Genuine First Nations ownership, regional participation and community-informed engagement.

15+ YEARS' EXPERIENCE

Founder's trade and industry experience across testing, compliance, maintenance and installations.

ALL OF FAR NORTH QUEENSLAND

Mobilisation capability for regional centres, remote communities and off-grid facilities.

SECTORS WE SUPPORT

01 **Commercial Facilities**

02 **Government Departments**

03 **Local Councils**

04 **Community Housing Providers**

05 **Mining & Industrial Operators**

06 **Education Campuses**

07 **Property Managers**

FOUNDER EXPERIENCE

Experience

With more than 15 years in the electrical trade, David Burtina has delivered installation, maintenance, testing and upgrade works across commercial, hospitality, industrial, aviation, agricultural and residential environments. As a Lead Electrician, he has led site works, estimated and planned projects, supervised apprentices and coordinated with other trades on projects where safety and compliance are critical.

FEATURED PROJECT

Lead Electrician – Multi-Storey Accommodation Building

Led the electrical works on a multi-storey, fully fire-rated accommodation building, delivering a compliant installation in a highly regulated, compliance-critical environment.

LEADERSHIP & PROJECT DELIVERY

- Lead Electrician on multiple commercial office fit-outs
- Estimating, quoting and project planning
- Supervision of apprentices and coordination of multiple trades on site
- After-hours and shutdown works to minimise disruption to operations

SECTOR EXPERIENCE

Gaming & Hospitality

Electrical maintenance, general works and fit-outs for casinos, clubs and licensed venues, including after-hours works to keep venues operating.

Commercial Offices

Ongoing electrical maintenance and complete new office fit-outs.

Aviation

General electrical works and maintenance at airport facilities.

Industrial

Electrical maintenance and general works across industrial facilities.

Agriculture

Electrical works for farms and agricultural operations.

Residential

New home builds and ongoing maintenance.

TESTING & COMPLIANCE

- Portable appliance inspection, testing and tagging (AS/NZS 3760)
- RCD testing
- Emergency and exit lighting testing (AS 2293)
- Testing, verification and certification of new electrical installations

SPECIALIST CAPABILITIES

- Commercial switchboard upgrades
- Air conditioning installation (ARC licensed)

QUALIFICATIONS & LICENCES

- Queensland Electrical Licence
- QLD Electrical Contractor Licence 1515493
- ARC Refrigerant Handling Licence L168506
- Low Voltage Rescue (LVR) and CPR
- White Card (General Construction Induction)

CORE COMPETENCIES

ELECTRICAL TESTING & STATUTORY COMPLIANCE

NORTHERN ELECTRICAL & TESTING SPECIALTY

TESTING / INSPECTION / REPORTING

01 Test & Tag

AS/NZS 3760 / AS/NZS 3012 (construction sites)

Systematic inspection, testing and tagging of portable electrical appliances and leads, supported by digital asset tracking and compliance logging.

02 RCD Testing

AS/NZS 3760 / AS/NZS 3000

Push-button and trip-time testing for Residual Current Devices to protect personnel and facilities against earth leakage faults.

03 Emergency & Exit Lighting

AS 2293

90-minute discharge testing, tube, battery and fitting replacements, defect identification and logbook maintenance.

04 Thermal Imaging / Thermography (Coordinated)

Infrared surveys of main switchboards, distribution boards and motor control centres, coordinated by us through a specialist thermography provider. Managed under the one contract, with any defects found followed up and rectified by us.

05 Switchboard Inspections & Audits

Detailed visual and electrical condition assessments, safety switch upgrades and compliance reporting, with thermal imaging coordinated where required.

06 Residential Smoke Alarm Compliance

AS 3786 / QLD Legislation

Portfolio-wide installation, audit and testing for property managers, community housing and residential facilities.

07 Microwave Leakage Testing

Radiation and door-seal integrity testing for commercial kitchens, mess halls and staff break areas.

COMPLIANCE CERTAINTY

CLEAR RECORDS. COMPLETE VISIBILITY.

Full audit trails and clear completion documentation after every inspection.

SERVICE CAPABILITIES

01

General Electrical

Light and power installations, switchboard upgrades, fault diagnosis, scheduled maintenance and equipment fit-outs.

02

Facility & Asset Maintenance

12-month service agreements with testing scheduled at the required intervals, prompt breakdown repairs and single-contractor compliance packages.

03

Data & Communications

Structured cabling, patch panels, communications racks and network point installations for office and remote sites.

04

Air Conditioning

Split-system supply, installation and replacement for commercial and accommodation environments. ARC licensed (L168506).

DELIVERY MODEL

ONE COORDINATED CONTRACTOR

Testing, tagging, RCD testing, emergency lighting, general electrical work and planned maintenance, with thermal imaging coordinated through a specialist provider.

SOCIAL PROCUREMENT

INDIGENOUS ENGAGEMENT & REGIONAL VALUE

FIRST NATIONS OWNED / REGIONALLY CAPABLE / PROCUREMENT READY

100%

FIRST NATIONS OWNED & OPERATED

Supporting corporate and government clients in achieving targets under the Commonwealth Indigenous Procurement Policy and Queensland Indigenous Procurement Policy.

01 SUPPLY NATION REGISTERED

Northern Electrical & Testing is a Supply Nation Registered, 100% First Nations owned and operated electrical contractor, supporting organisations seeking to engage genuine Indigenous suppliers across Cairns and Far North Queensland.

02 QIBN VERIFIED MEMBER

Northern Electrical & Testing is a verified member of the Queensland Indigenous Business Network (QIBN), Member ID #0161.

03 CULTURAL & COMMUNITY RESPECT

Respectful, community-informed engagement, led by a First Nations founder with deep family and cultural connections across Aboriginal and Torres Strait Islander communities.

WHY CHOOSE US

01 Compliance certainty

Clear records and audit trails.

02 Remote-ready

Self-sufficient field capability.

03 Safety-first culture

Risk controls and PPE standards.

04 Single-source simplicity

One coordinated contract.

05 24/7 responsive support

Rapid mobilisation when required.

06 No call-out fees

Transparent, fixed testing rates.
