SAFE. RELIABLE. COMPLIANT.

CAPABILITY STATEMENT

NORTHERN ELECTRICAL & TESTING

SAFE. RELIABLE. COMPLIANT.

FAR NORTH QUEENSLAND • REGIONAL & REMOTE

0420 563 581 | admin@NETQLD.com.au | netqld.com.au

BUILT FOR COMPLIANCE. READY FOR THE REGION.

COMPANY OVERVIEW

Northern Electrical & Testing (NET) is a 100% First Nations owned and operated electrical contractor based in Far North Queensland, specialising in electrical safety testing and statutory compliance while also delivering reliable electrical services, maintenance and installations.

With over 15 years of trade and industry experience, NET supports clients with statutory testing, preventative maintenance, fault response and end-to-end electrical work across regional centres and remote communities.

NET is built on high technical standards, transparent asset reporting and dependable delivery across challenging locations.

AT A GLANCE

ELECTRICAL TESTING & STATUTORY COMPLIANCE

NORTHERN ELECTRICAL & TESTING SPECIALTY

TESTING / INSPECTION / REPORTING

01 Test & Tag

AS/NZS 3760

Systematic inspection, testing and tagging of portable electrical appliances and leads, supported by digital asset tracking and compliance logging.

02 RCD Testing

AS/NZS 3760 / AS/NZS 3000

Push-button and trip-time testing for Residual Current Devices to protect personnel and facilities against earth leakage faults.

03 Emergency & Exit Lighting

AS 2293

90-minute discharge testing, tube, battery and fitting replacements, defect identification and logbook maintenance.

04 Thermal Imaging / Thermography

Non-invasive infrared surveys of main switchboards, distribution boards and motor control centres to detect thermal hotspots, phase imbalances and imminent equipment failure.

05 Switchboard Inspections & Audits

Detailed visual, thermal and electrical condition assessments, safety switch upgrades and compliance reporting.

06 Residential Smoke Alarm Compliance

AS 3786 / QLD Legislation

Portfolio-wide installation, audit and testing for property managers, community housing and residential facilities.

07 Microwave Leakage Testing

Radiation and door-seal integrity testing for commercial kitchens, mess halls and staff break areas.

COMPLIANCE CERTAINTY

CLEAR RECORDS. COMPLETE VISIBILITY.

Full audit trails and clear completion documentation after every inspection.
